

A Bag For Life
By Jean Hall

A bag for life, make sure it's strong,
even though you have a penchant
for cramming it – don't overload -
that surplus weight might just erode
its usefulness, if you get it wrong.

And in that bag you take along,
store treasured items, poems, a song,
valued things – use your own barcode -
a bag for life.

Travelling another furlong -
this bag is a keeper, prolong
valuable time, each episode -
use space well, it's one for the road -
make numbered days last extra long -
a bag for life.
